# What Kids Say

I learned that everyone is different in different ways. My favorite part was when all the kids and I got to ask questions I really liked that part. Thank you for coming to show us the puppet show I really had a grate time. I thought it was very fun and very funny. I am very glad you came. I also learned that when you are blind you can read off of paper and posters I thought that was very, very neat. I learned that people like different things and animals, and sometimes they even like different foods. I was really excited seeing a puppet show at our school and I was very glad you came. So thank you very, very, very much!!

Thank you to  
everyone

Thank you for putting on such a great show. I learned not to judge people from the outside. And if they look different from you ask them what they like to do and maybe you will make friends. I also learned that everybody is different but most of the time you are the same in at least one way. But always remember everybody is special!
